

I'm writing in reference to the LPFM and how it may effect my community. Specifically, how it would effect K-LOVE and my community. K-LOVE is a radio station which I value. It is positive, encouraging and uplifting. It is also family friendly. Something that is difficult to find in this day and age. I believe that if K-LOVE were displaced by a LPFM our community would be the worse for it. K-LOVE offers consistant programming which I recommend to my friends and neighbors; especially those which children. If it were taken off the air it would be difficult to find another station I would feel comfortable recommending. K-LOVE may be a national station but they feel like a local part of our community. It's a place to call home on the radio dial.
